

Dumpster Rental Reimbursement Policy

The Venango County Land Bank (VCLB) will accept proposals for reimbursement for the rental of dumpsters to be used in the demolition or clean-up of blighted property and for cleanup days sponsored by a municipality. In order to qualify for the dumpster reimbursement, the following criteria must be met:

1. The requesting organization must be a government, quasi-government, or non-profit organization. Individuals may apply through their municipality.
2. A Dumpster Rental Application, provided by the Land Bank, must include details regarding the demolition or clean-up.
3. For clean-up days, the schedule and location shall be specified. Dumpsters used for clean-up days must be placed in a location accessible to all residents of the municipality and advertised by a notice to residents of the municipality. The requesting municipality is responsible for proper disposal of all contents in the dumpsters.
4. The submission of applications shall be accompanied by attendance at a meeting of the Venango County Land Bank to address any questions regarding the project.
5. The proposal must include a demolition permit from the municipality, if applicable.
6. The applicant is responsible to order the dumpster and for any cost above the \$500 reimbursement limit.

All dumpster requests must be approved by the VCLB Board. If approved, the VCLB will provide reimbursement up to \$500 per dumpster after completion of the project and submission of a paid invoice to the Land Bank Secretary or Treasurer. Reimbursement will be made only one time for each property. Upon request by the municipality, additional dumpsters may be approved. The VCLB will develop its budget annually and review the budget monthly as a part of the Treasurer's Report. The amount allocated for this program shall not exceed \$5,000 per year.
