Message from the Director

I am pleased to provide you with our 2017 Annual Report. The report contains both output and outcome data from our Adult Community Corrections Division, Juvenile Probation Division, Collections Unit and Alcohol Highway Safety Program. Additional data and reports are available on our website at: <http://www.co.venango.pa.us/cssabout.html>

There were several activities involving our department in 2017 that are noteworthy including the following:

- Four members of the Venango County Problem Solving Court Team attended the National Drug Court Institute's Conference in July in Washington, D.C. Each year NDCI hosts the world's largest conference on treatment courts and criminal justice reform. Additionally, a second Problem Solving Court Coordinator was hired and assigned to Court Supervision in December in an effort to increase the capacity of the program while maintaining a small staff to participant ratio.
- Court Supervision received funding from the PA Commission on Crime and Delinquency (PCCD) to integrate our adult risk/needs assessment, the Level of Service Inventory-Revised (LSI-R), with our adult case-management system administered by the County Commissioners Association of PA. This project ran from January through June of 2017.
- Court Supervision also received funding from PCCD to purchase safety related equipment for field officers including body armor, mobile and portable radios and Taser cartridges.
- The Juvenile Division began using the UCLA PTSD Reaction Index for Children/Adolescents DSM-5 at the intake level in January of 2016 to conduct a comprehensive evaluation of trauma history and an assessment of stress symptoms for youth entering our juvenile justice system. Later in the year Court Supervision agreed to participate as a research collaborator with Dr. Keith Cruise of Fordham University when he made application to the Office of Juvenile Justice and Delinquency Prevention for funding to perform "Evaluations of Trauma- Informed Care in Juvenile Justice Settings". The project held its Kick Off meeting for system stakeholders as well as planning/focus groups for the research portion of the project in March of 2017.

As always, I would like to express my appreciation to the Court, Court Supervision Staff, County partners, service providers and all others involved with our mission of protecting the community, holding the offender accountable, restoring the victims, and addressing offender competencies.

MISSION STATEMENT

Court Supervision is a combined juvenile probation and adult intermediate punishment department committed to providing a balanced approach to the administration of justice. Our programs and supervision strategies are designed to protect the community, hold the offender accountable, restore the victim and address offender competencies. We believe that it is imperative to employ evidence-based practices at every stage of the justice process; to collect and analyze the data necessary to measure the results of these efforts; and to strive to continuously improve the quality of our decisions, services and programs.
