Message from the Director

I am pleased to provide you with our 2018 Annual Report. The report contains both output and outcome data from our Adult Community Corrections Division, Juvenile Probation Division, Collections Unit and Alcohol Highway Safety Program. Additional data and reports are available on our website at: <https://www.co.venango.pa.us/219/Court-Supervision-Services>

There were several activities involving our department in 2018 that are noteworthy including the following:

- The Adult Division converted from CCAP's UCM adult case-management system to CDI/BTM.
- Court Supervision hosted a regional Motivational Interviewing training for probation officers where a new MI 101 curriculum was piloted.
- The Juvenile Division hosted a regional training on the PA Detention Risk Assessment Instrument (PADRAI) and began using this tool when considering out of home shelter or detention for youth.
- An adult Re-entry officer position was created and filled to assist inmates with in-house programming and their transition back to the community.
- The Adult Division converted to a 4th generation Risk-Needs Assessment, the Ohio Risk Assessment System (ORAS) and began using specialized assessments for Bail/Pre-Trial, ARD and Community Supervision populations.

As always, I would like to express my appreciation to the Court, Court Supervision Staff, County Commissioners and other county departments, service providers and all others involved with our mission of protecting the community, holding the offender accountable, restoring the victims, and addressing offender competencies.

Robert E. Daugherty

MISSION STATEMENT

Court Supervision is a combined juvenile probation and adult intermediate punishment department committed to providing a balanced approach to the administration of justice. Our programs and supervision strategies are designed to protect the community, hold the offender accountable, restore the victim and address offender competencies. We believe that it is imperative to employ evidence-based practices at every stage of the justice process; to collect and analyze the data necessary to measure the results of these efforts; and to strive to continuously improve the quality of our decisions, services and programs.
