This report provides an overview of juvenile court dispositions in Pennsylvania during 2015 and preceding years, and summarizes juvenile court statistical data provided by county juvenile probation departments. Without the support of the courts and juvenile probation departments, this report would not be possible.

Although the report focuses primarily on delinquency dispositions, information has again been included on dependency cases that have been referred to juvenile probation departments. While county children and youth agencies handle the overwhelming majority of cases involving dependent children in the Commonwealth, some juvenile probation departments provide services to children who are alleged to be dependent on the basis of ungovernability or chronic truancy.

The information contained in this report is of value to all individuals, agencies and organizations having an interest in Pennsylvania's juvenile justice system. However, it is not intended to reflect the total workload of juvenile courts or juvenile probation departments.

It is with great pleasure that we dedicate this report to the judges, probation officers, victim advocates, district attorneys, defenders, service treatment providers, and other professionals who work on a daily basis in the Pennsylvania juvenile court system.

Respectfully submitted,

Richard D. Steele
Acting Executive Director

Honorable Kim Berkeley Clark
Chairman

The format and presentation of the data in this report are intended to help summarize various trends in juvenile courts within the Commonwealth. In addition to the graphs and charts, narrative is included that is intended to help readers more quickly recognize various statewide trends, as well as highlight information not reflected in the visual displays.

Please note that some 2014 data have been updated since the initial release of the 2014 Pennsylvania Juvenile Court Disposition Report. Those updates are reflected in the current relevant charts and graphs, as well as in the narrative on year-to-year comparisons.

The data within this year's report are generally organized in a manner that reflect the chronological processing of juvenile court delinquency cases, with the exception of pages 3-5 (*Delinquency Dispositions through Frequencies of Statewide Delinquency Dispositions*).

Within this report, some of the data are organized and presented in graphs by Class County to help readers make comparisons across counties of similar size and demographic composition.

While some county-specific data are presented within the body of the report, all of the raw data for each of Pennsylvania's 67 counties remain available for viewing. For each section within the report, please reference the appendices to review county-specific data on that topic.

This report is a compilation of the data collected from the juvenile probation departments throughout the Commonwealth of Pennsylvania.

As in the past, to avoid confusion regarding the unit of count used in tabulating juvenile court statistics and to improve the understanding of how data can be interpreted, please note:

1. The primary unit of count is the *disposition*. A *disposition* is defined as an allegation of delinquency disposed of by the juvenile probation department and/or the court. Within a single delinquency allegation, a youth may be charged with a number of offenses that may result in multiple petitions. Any one youth may be involved in a number of dispositions within a calendar year. In addition, a youth may be referred on more than one occasion and receive only one disposition. Dependency dispositions include only those referrals to probation departments alleging dependency that are not accompanied by an allegation of delinquency. *Therefore, one is cautioned NOT to attempt to interpret dispositions as the number of youth who are processed by the court or the number of offenses;*
2. There are times when you will see the word *case* used to describe the data. In this report, the word *case* is used interchangeably with the word *disposition*;
3. The *unit of count* refers to a case disposed of by a juvenile court and/or juvenile probation department. The term *disposed* means that a definite action/decision has been implemented;
4. The statistical system is constructed to collect up to the seven (7) most serious offenses per delinquency disposition;
5. The Juvenile Court Judges' Commission collects additional information on *placement reviews*, *disposition reviews*, and selected special conditions attached to a disposition. A *disposition review* is a hearing conducted before the court regarding a previous disposition which did not result in out-of-home placement. A *placement review* is a hearing conducted before the court regarding a previous disposition which did involve out-of-home placement;
6. The data in the secure detention section of this report were collected in conjunction with the Juvenile Court Judges' Commission's Secure Detention Monitoring Program; and
7. The reader is cautioned that in the tables containing rows with "percent of total", the row may not total 100 percent due to rounding.

Highlights

We draw your attention to the following statistical highlights of 2015:

- There were 24,139 delinquency-related dispositions in Pennsylvania during 2015. This represents a 5.6% decrease from 2014 and a 25.8% decrease since 2011 (page 4).
- Statewide, secure detention admissions have declined 11.1% since 2014 (page 13) and 41.4% since 2011.
- Statewide, delinquency placements have declined each year since 2011 with an overall decrease of 32.1%, and a decrease of 12.9% since 2014 (page 17).
- Seventeen-year-olds accounted for the most dispositions of any age group in 2015, representing 26.4% of all dispositions, followed in descending order by sixteen-year-olds (20.9%) and fifteen-year-olds (17.2%) (page 24).
- Youth whose biological parents were reported as “never married” represented more than 48% of all delinquency dispositions, while youth whose parents were reported as “married” represented 16.5% (page 26).
- Statewide, 47.3% of youth were reported as residing only with their mother, while 17.2% of youth resided with both biological parents (page 26).
- The majority of all delinquency dispositions involved White Non-Hispanic youth (45.8%), followed in descending order by Black Non-Hispanic youth (36.7%) and Hispanic youth (12.8%) (page 28).

Population ranges for Pennsylvania counties:

- 1 - 60
- 61 - 100
- 101 - 200
- 201 - 500
- 501 - 1,000
- 1,001 - 1,200+

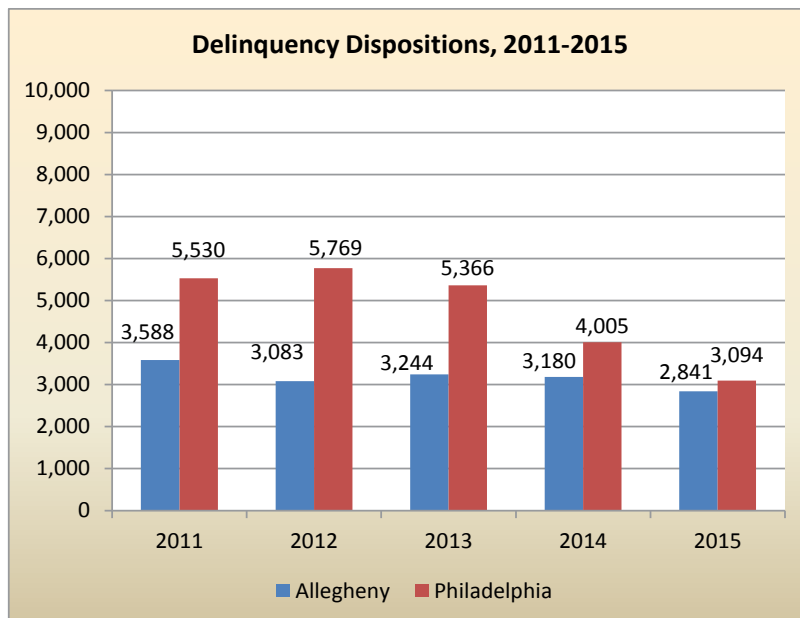

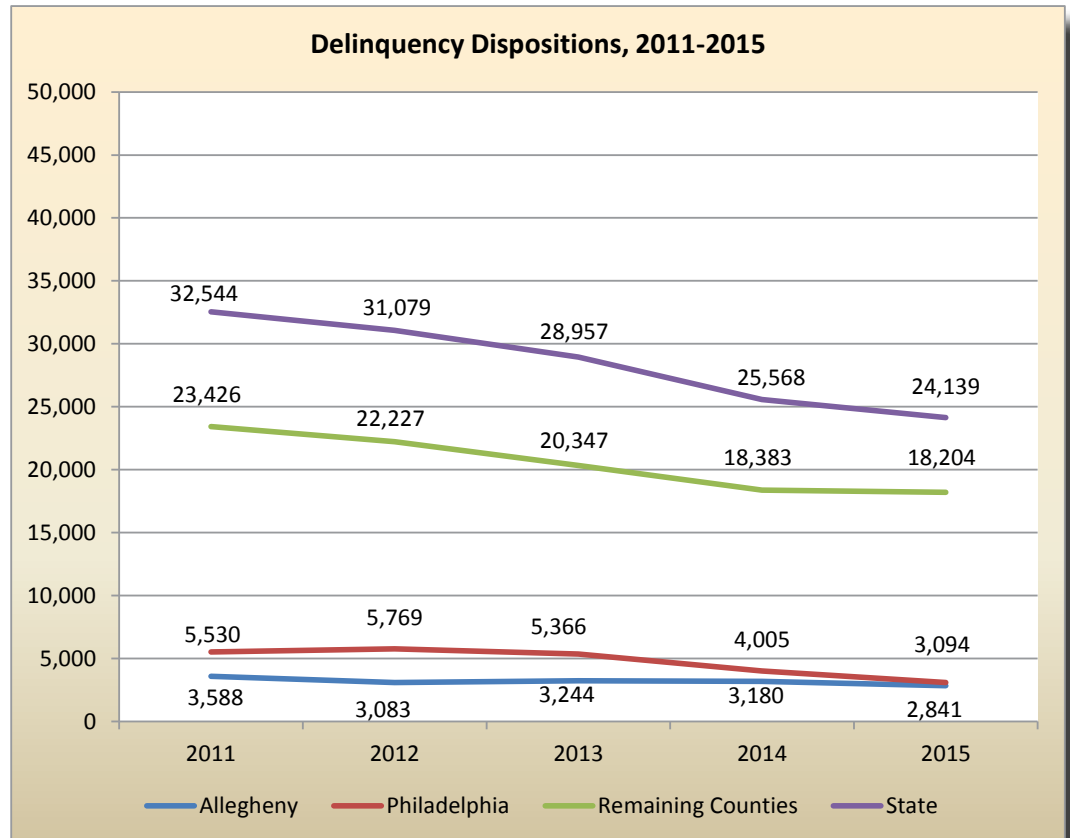

Delinquency Dispositions

Delinquency Dispositions, 2011-2015

There were 24,139 delinquency-related dispositions in Pennsylvania during 2015. This represents a 5.6% decrease from 2014 and a 25.8% decrease since 2011. Almost half (42.9%) of the total dispositions occurred in the six jurisdictions reporting more than 1,000 dispositions (see map on page 3).

Note: Dispositions resulting from Disposition Reviews, Placement Reviews, and Dependency referrals are not included.

From 2014 to 2015, the Commonwealth's largest jurisdictions, Allegheny and Philadelphia Counties, both reported decreases in delinquency dispositions. Allegheny County reported a decrease of 10.7%, and Philadelphia County reported a 22.7% decrease.

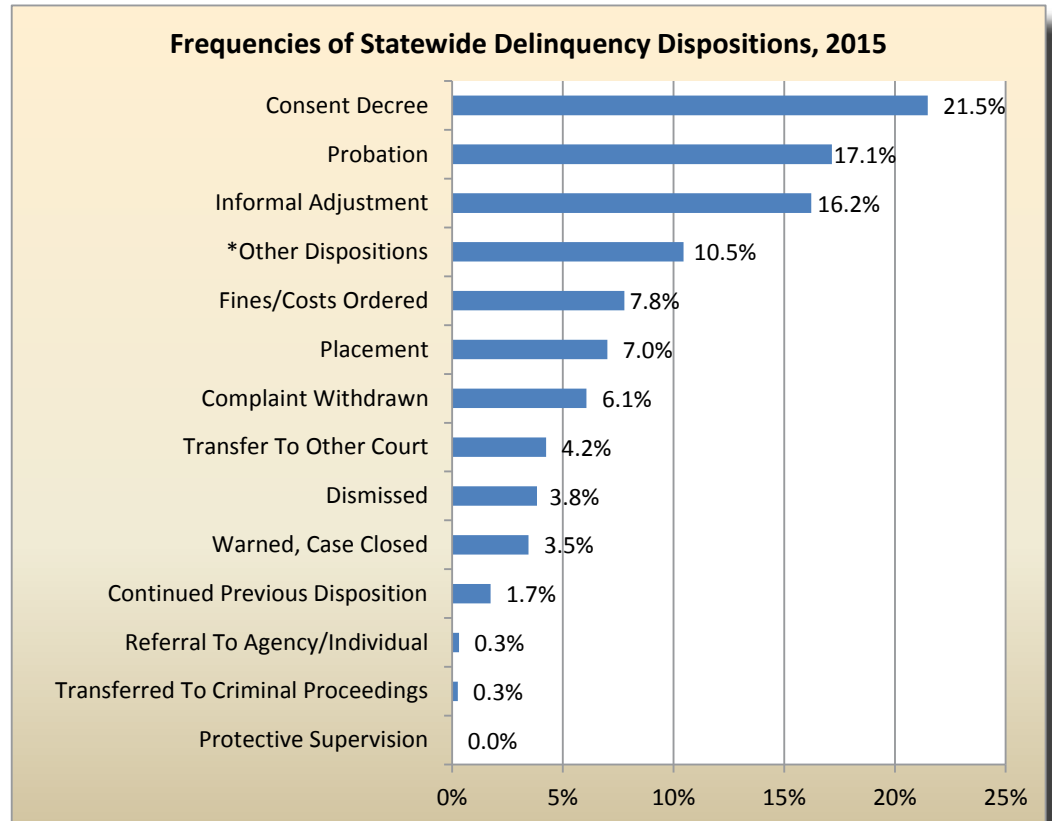

Frequencies of Statewide Delinquency Dispositions

Dispositions of Consent Decree, Probation, and Informal Adjustment continued to represent over half (54.8%) of all dispositions. Placement dispositions resulting from new allegations of delinquency decreased slightly (7.5% to 7.0%) from 2014 to 2015.

Note: Does not include disposition reviews and placement reviews.

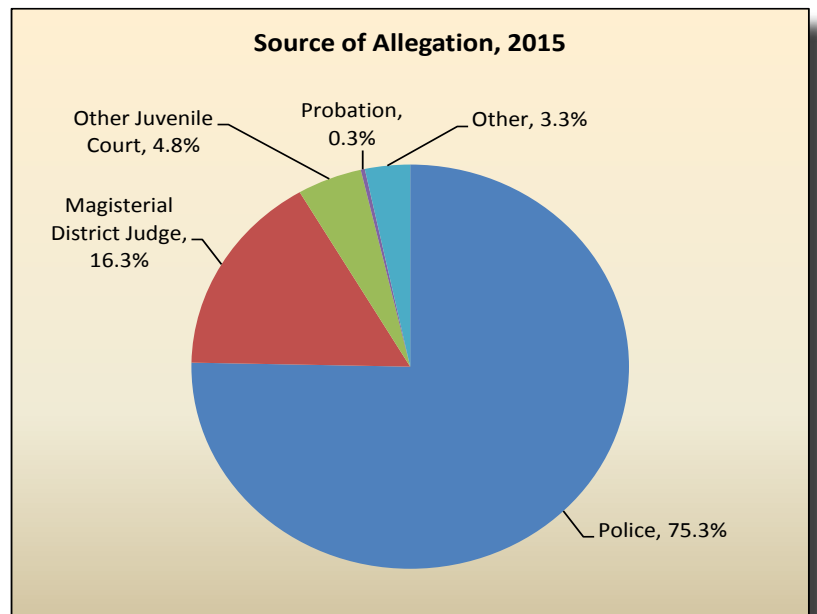

**The "Other Dispositions" category includes dispositions of Case Closed, Accepted Courtesy Supervision, Community Service Only, Case Closed-Fines Paid, Other, Case Closed-Unable to Locate Juvenile, Restitution Only Ordered, Administrative Supervision Only/Collections, and Judgement Filed/Case Closed.*

Source of Allegation

Police and Magisterial District Judges continued to be the primary sources of delinquency allegations – 75.3% and 16.3% respectively.

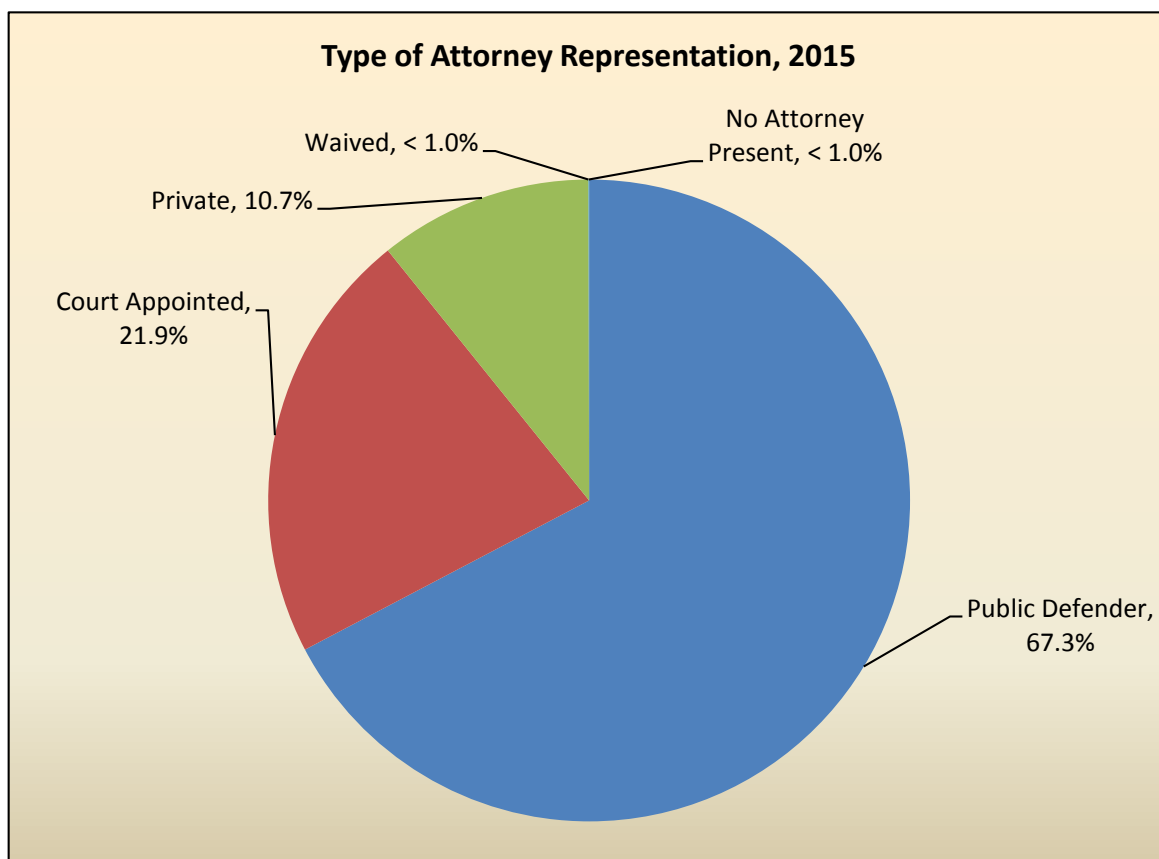

Note: The category "Other" includes delinquency allegations received from schools, social agencies, relatives, and cases transferred from criminal court.

Attorney Representation in Formal Delinquency Proceedings, 2015

Legal representation provided by Public Defenders continued to be the most common form of representation in delinquency proceedings (67.3% in 2015). Legal representation was provided by Court Appointed or Private Counsel in 32.6% of delinquency proceedings. (An entry of “Court Appointed” includes cases where counsel other than the public defender was appointed by the court.) Delinquency proceedings were conducted without defense counsel (waived or not present) in less than 1% of all delinquency proceedings.

Median Time Lapse for Formal vs. Informal Proceedings by Type of Disposition, 2015

A formal proceeding is defined as a hearing held before a judge or master, after the filing of a petition. The time lapse is measured from the Date of Allegation to the Date of Disposition. An informal proceeding results in a decision being made without a formal appearance before a judge or master.

Statewide, cases handled through informal proceedings were typically disposed of more quickly than cases handled through formal proceedings (67 days vs. 98 days). The number of dispositions by disposition type are also indicated in the charts below.

Note: Does not include disposition reviews and placement reviews.

Formal Dispositions

**The "Other Dispositions" category includes dispositions of Case Closed, Community Service Only, Other, Administrative Supervision Only/Collections, Accepted Courtesy Supervision, Restitution Only Ordered, Case Closed-Fines Paid, Judgement Filed/Case Closed, and Case Closed-Unable to Locate Juvenile.*

FORMAL DISPOSITIONS

TYPE OF DISPOSITION	NUMBER OF DISPOSITIONS	MEDIAN DAYS
PROTECTIVE SUPERVISION	1.....	1.0
PLACEMENT.....	1,692.....	72.0
REFERRED TO AGENCY/INDIVIDUAL	16.....	74.0
TRANSFER TO OTHER COURT	933.....	83.0
WARNED, CASE CLOSED	181.....	84.0
CONSENT DECREE	4,420.....	86.0
PROBATION.....	4,138.....	107.0
TRANSFER TO CRIMINAL COURT	61.....	109.0
DISMISSED.....	854.....	110.0
FINES/COSTS ORDERED.....	193.....	124.0
*OTHER DISPOSITIONS.....	682.....	124.0
COMPLAINT WITHDRAWN.....	853.....	149.0
CONTINUED PREVIOUS DISPOSITION	343.....	166.0
TOTAL.....	14,367	98.0

Informal Dispositions

Note: In the case resulting in a disposition of Probation (1), the disposition was reported to have been ordered by the Court without a post-petition hearing being held. The juvenile was already active with probation, and the adjudication on the new charge was handled via a signed court order; all parties were in agreement to proceed with disposition by court order and without a formal hearing.

**The "Other Dispositions" category includes dispositions of Case Closed, Accepted Courtesy Supervision, Case Closed-Fines Paid, Community Service Only, Case Closed-Unable to Locate Juvenile, Other and Resitution Only Ordered.*

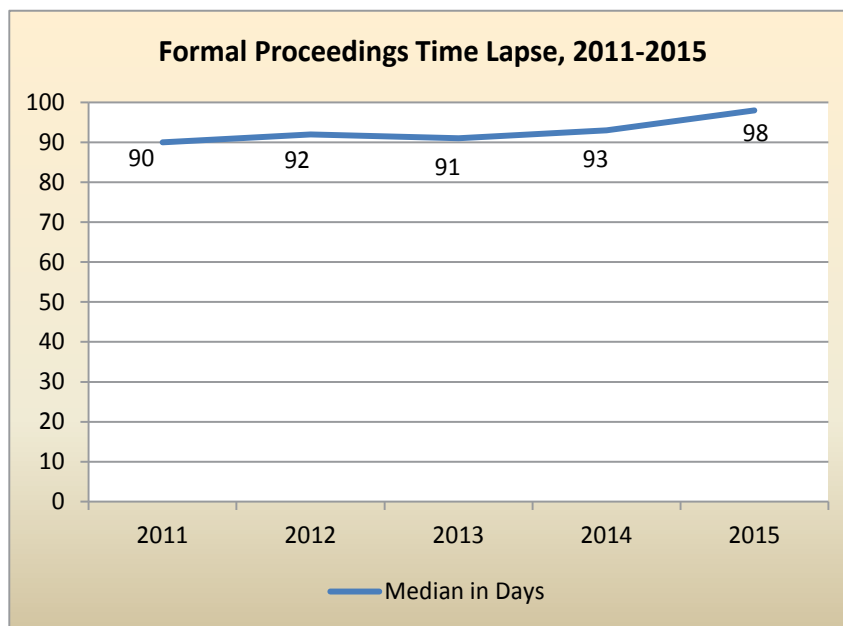

INFORMAL DISPOSITIONS

TYPE OF DISPOSITION	NUMBER OF DISPOSITIONS	MEDIAN DAYS
PROBATION.....	1.....	4.0
TRANSFER TO OTHER COURT	92.....	14.0
FINES/COSTS ORDERED.....	1,685.....	21.0

DISMISSED.....	71.....	169.0
REFERRED TO AGENCY/INDIVIDUAL	59.....	253.0
CONTINUED PREVIOUS DISPOSITION	77.....	306.0
TOTAL.....	9,772.....	67.0

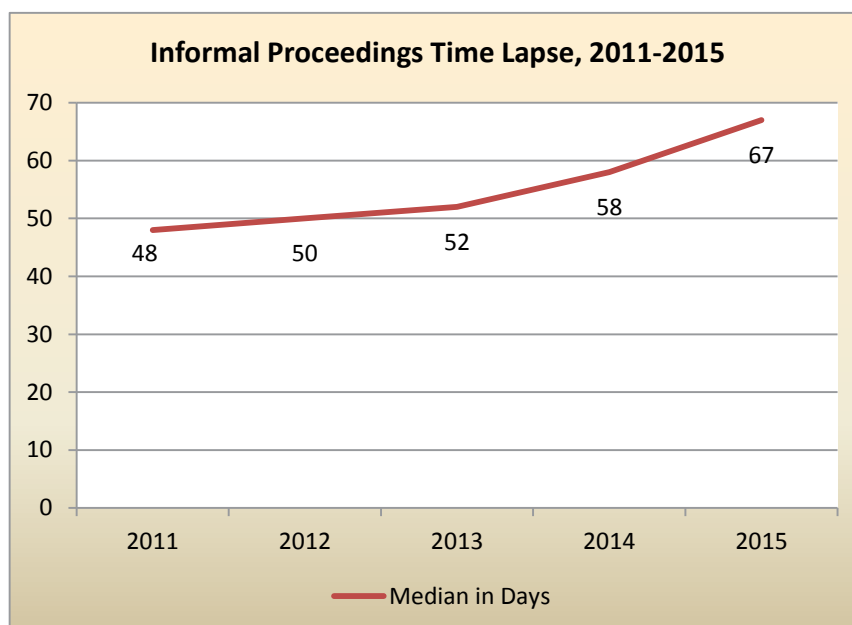

Median Time Lapse for Formal vs. Informal Proceedings, 2011-2015

The time lapse for formal proceedings, as measured by the Date of Allegation to the Date of Disposition, has increased by 5.4% since 2014 (from 93 to 98 days). This slight increase is consistent with the median time lapse trend for the last five years. Since 2011, the median time lapse has increased 8.9%.

The time lapse for informal proceedings, also measured by the Date of Allegation to the Date of Disposition, increased by 15.5% since 2014 (from 58 to 67 days). This is also consistent with the median time lapse trend for the last five years. Since 2011, the median time lapse for informal proceedings has increased by 39.6%.

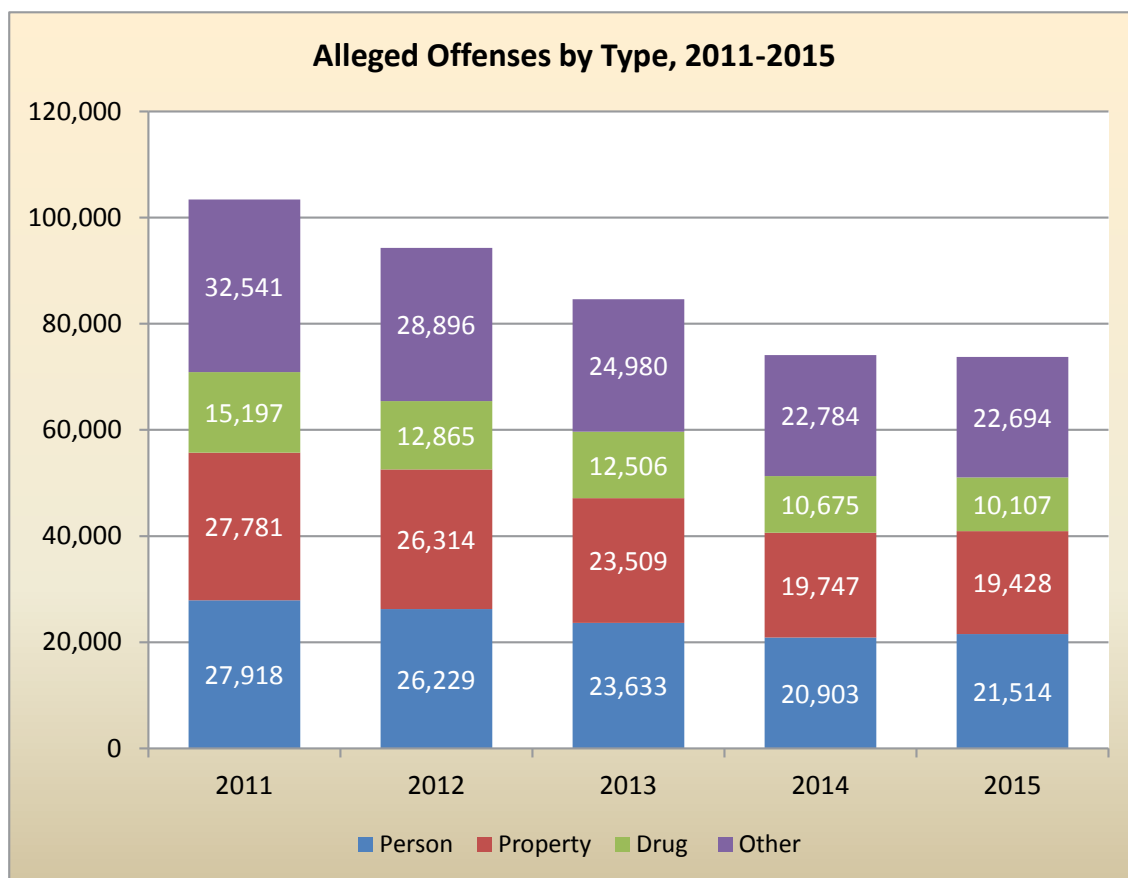

Alleged Offenses, 2011-2015

Alleged offenses have decreased by less than 1% from 2014 to 2015 and have decreased by 28.7% since 2011. The Drug offense category has shown the largest decrease (5.3%) from 2014, however, Person offenses increased by 2.9%.

Since 2011, Drug offenses have shown the sharpest decline (33.5%). Property and “Other” offenses have also declined considerably, 30.1% and 30.3% respectively, with Person offenses decreasing 22.9% over the same period.

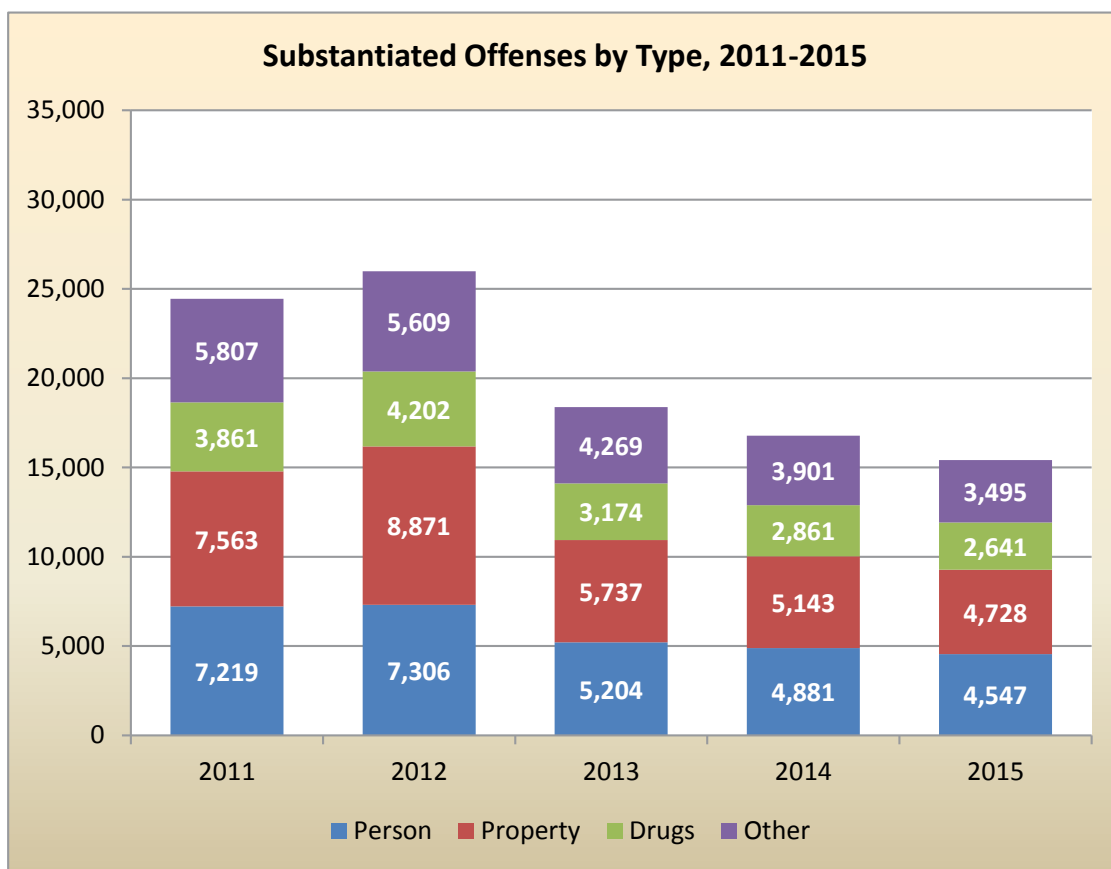

Note: The “Other” offenses category includes, but is not limited to: Public Order offenses, such as Disorderly Conduct or Weapon on School Property; Firearms offenses; and Certifications from the minor judiciary that a juvenile failed to comply with a lawful sentence imposed for a summary offense.

Substantiated Offenses, 2011-2015

Substantiated offenses decreased (8.2%) from 2014 to 2015, with the largest decrease occurring in the “Other” offense category (10.4%). Property offenses decreased by 8.1%, Drug offenses decreased by 7.7%, and Person offenses decreased by 6.8%.

The total number of substantiated offenses remained well below 2011 levels. Similarly, each category of substantiated offenses (Person, Property, Drugs, and “Other”) remained below their respective 2011 levels.

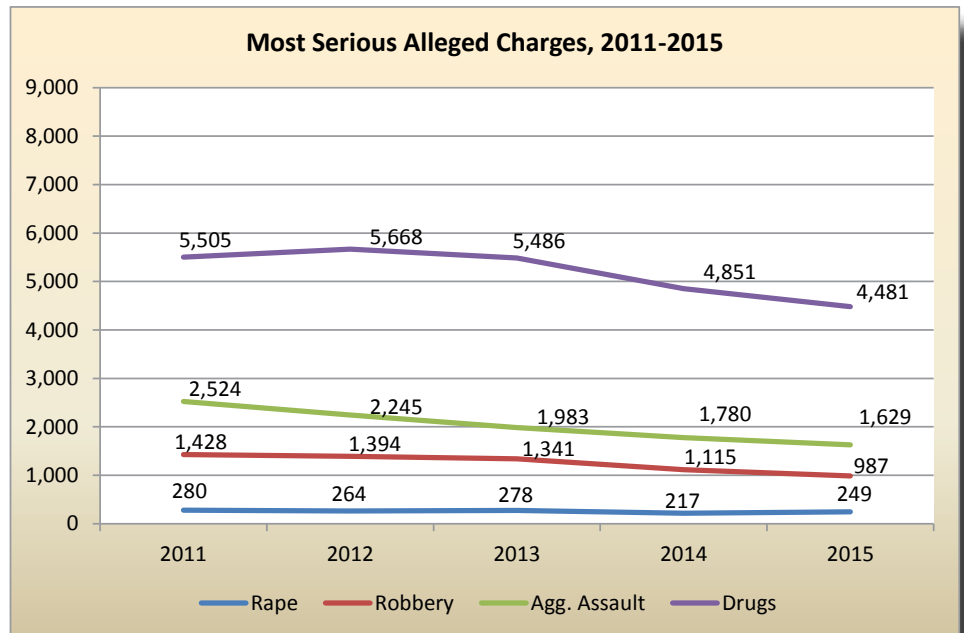

Note: The “Other” offenses category includes, but is not limited to: Public Order offenses such as Disorderly Conduct or Weapon on School Property; Firearms offenses; and Certifications from the minor judiciary that a juvenile failed to comply with a lawful sentence imposed for a summary offense.

Most Serious Offenses, 2011-2015

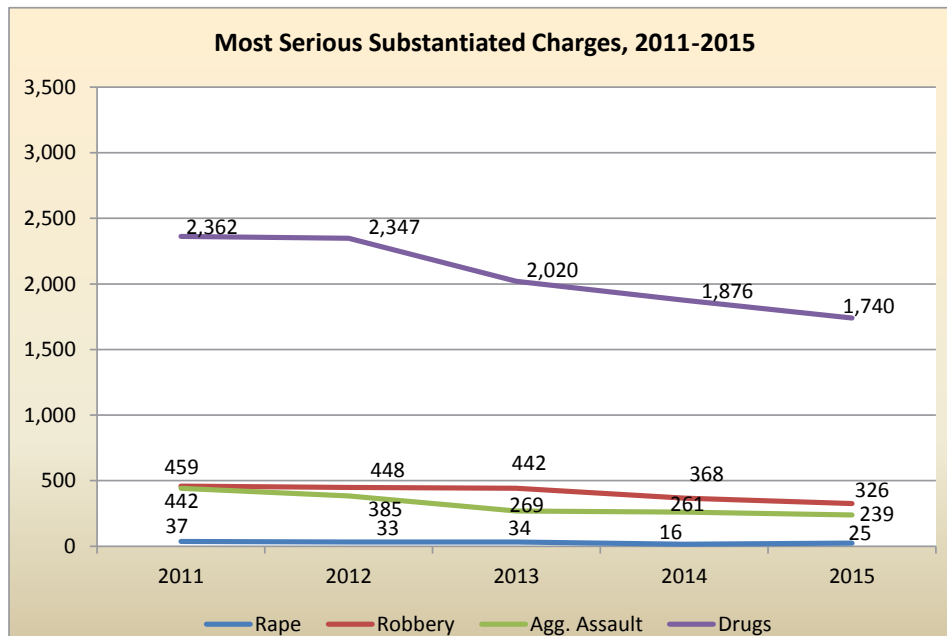

The chart at the right shows the statewide total of the most serious alleged charges from 2011-2015. Only the most serious charge per disposition is depicted. For example, a disposition with an alleged robbery charge and an alleged drug charge was counted in the robbery category. The Crime Severity key below shows the crime severity ranking employed for coding purposes.

There were decreases in the most serious alleged charge categories of Robbery (11.5%), Aggravated Assault (8.5%), and Drug (7.6%) from 2014 to 2015, however, there was an increase of 14.8% for the most serious alleged charge of Rape.

CRIME SEVERITY

1. Rape
2. Robbery
3. Aggravated Assault
4. Drug

The chart at the left shows the most serious substantiated charges using the same Crime Severity Ranking methodology as noted above.

Substantiated Robbery charges decreased by 11.4%, Aggravated Assault by 8.4% and Drugs by 7.2%, from 2014 to 2015, however, the substantiated Rape charges increased by 56.3% from 2014 to 2015.

Secure Detention Overview

In accordance with the Standards Governing Secure Detention, all counties report their secure detention admissions to the Juvenile Court Judges' Commission. Detention information was extracted from the Pennsylvania Juvenile Case Management System and secure detention database at the Center for Juvenile Justice Training and Research. The secure detention database is populated with data reported directly from juvenile detention centers each month.

When interpreting the data contained in these tables, the reader should note the following:

1. The unit of count is the admission of a juvenile to a secure detention center;
2. A juvenile who is admitted to a secure detention center and subsequently transferred to another secure detention center without release is counted as two admissions.

Codes Related to JCJC Standards Governing the Use of Secure Detention Under The Juvenile Act

Each month, all juvenile detention centers report a Statement of Facts and Reasons that must accompany every probation-authorized admission to secure detention. Below are the Section Codes related to this process.

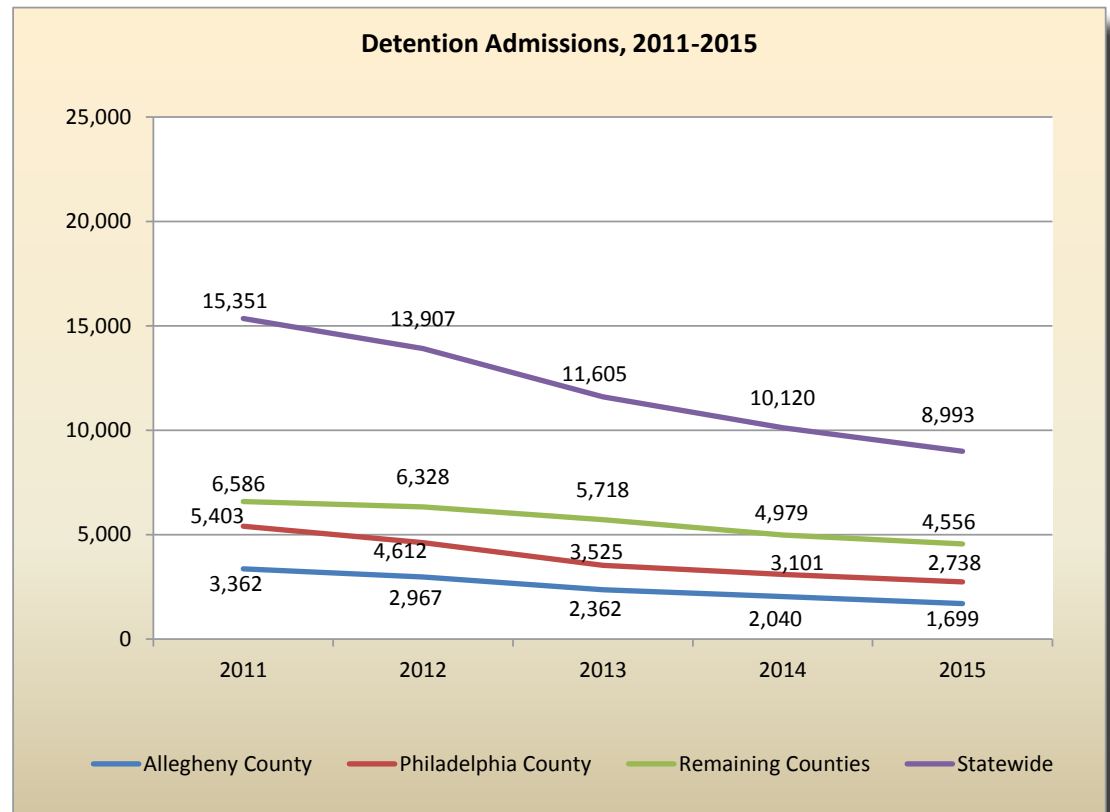

100 Codes	Circumstances under which secure detention may be authorized on the basis of an alleged offense or on the basis of an alleged offense and the child's current status with the court or prior record.
200 Codes	Circumstances under which secure detention may be authorized on the basis of a child's status as an absconder or fugitive; on the basis of a child's record of failing to appear at previous juvenile proceedings; or because of extraordinary circumstances which require secure detention to prevent a child from absconding.
300 Codes	Circumstances under which secure detention may be authorized on the written request of the child or child's attorney.
400 Codes	Circumstances under which secure detention may be ordered pending disposition, subsequent to a finding that a child committed a delinquent act or is a delinquent child.
500 Codes	Circumstances under which secure detention may be ordered following disposition pending transfer to placement.
600 Codes	Circumstances under which secure detention may be authorized on the basis of the child's status, pending or subsequent to a disposition review proceeding.
Code 701	Circumstances under which secure detention may be authorized on the basis of extraordinary and exceptional circumstances.

Secure Detention Admissions, 2011-2015

Statewide, detention admissions have declined each year since 2011, with a 41.4% overall decrease and an 11.1% decrease from 2014 to 2015. Allegheny County detention admissions decreased by 16.7% from 2014 to 2015, while Philadelphia County admissions declined by 11.7% during the same time period. Overall statewide admissions, excluding Allegheny and Philadelphia, decreased by 8.5% from 2014.

Philadelphia County and Allegheny County account for 30.4% and 18.9%, respectively, of all secure detention admissions.

PERCENTAGE CHANGE OF DETENTION ADMISSIONS				
	2011-2012	2012-2013	2013-2014	2014-2015
STATEWIDE	-9.4%	-16.6%	-12.8%	-11.1%
ALLEGHENY COUNTY	-11.7%	-20.4%	-13.6%	-16.7%
PHILADELPHIA COUNTY	-14.6%	-23.6%	-12.0%	-11.7%
REMAINING COUNTIES	-3.9%	-9.6%	-12.9%	-8.5%

Length of Stay in Secure Detention, 2015

In 2015, the statewide median length of stay in secure detention was 9 days, which is an increase of one day from 2014. The table below shows the median length of stay by county, from greatest to least number of days. Multiple counties with identical length of stay are listed alphabetically. This data, sorted by greatest to least number of admissions, can be found in the appendix.

COUNTY	NUMBER OF ADMISSIONS	MEDIAN LENGTH OF STAY IN DAYS
ARMSTRONG	1	83.0

*Includes 220 secure detention admissions to the Jefferson Detention Center in Ohio by the following counties: Beaver (49); Butler (17); Fayette (6); and Washington (148).

Secure Detention Admissions by Standard Section Codes

In 2015, the overwhelming majority of secure detention admissions were authorized under the 100 and 200 Codes – 28.8% and 37.3%, respectively. This trend has remained constant since 2011.

Special attention is given to the utilization of Codes 206, 701, and Unreported. In instances where secure detention is authorized under Codes 206 or 701, the juvenile probation officer is required to provide a detailed written explanation of the reasons that necessitate secure detention. These codes were intended to be utilized in limited circumstances where the other codes are not applicable.

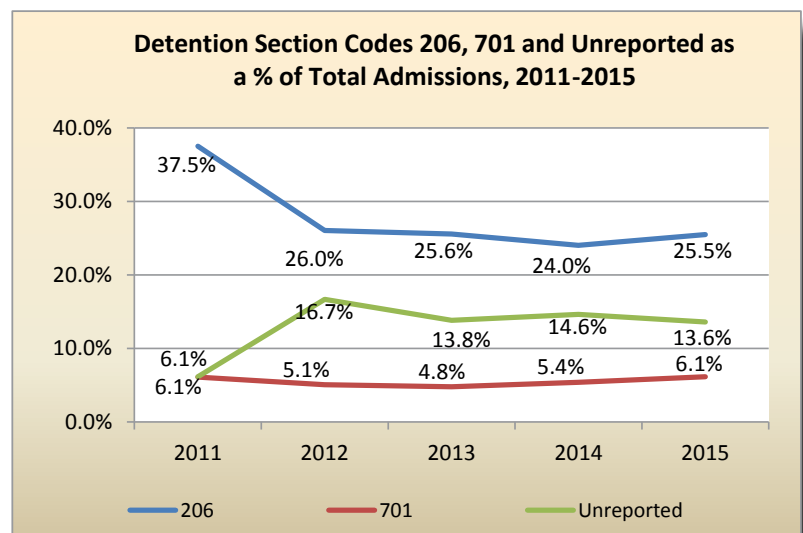

Code 206 - The child presents extraordinary circumstances requiring secure detention to prevent him/her from absconding. (Such circumstances may include, but are not limited to: the child's age, character, mental condition, ties to the community, the nature of the child's family relationships, drug or alcohol addiction, and substance abuse.)

Code 701 - Circumstances under which secure detention may be authorized on the basis of extraordinary and exceptional circumstances.

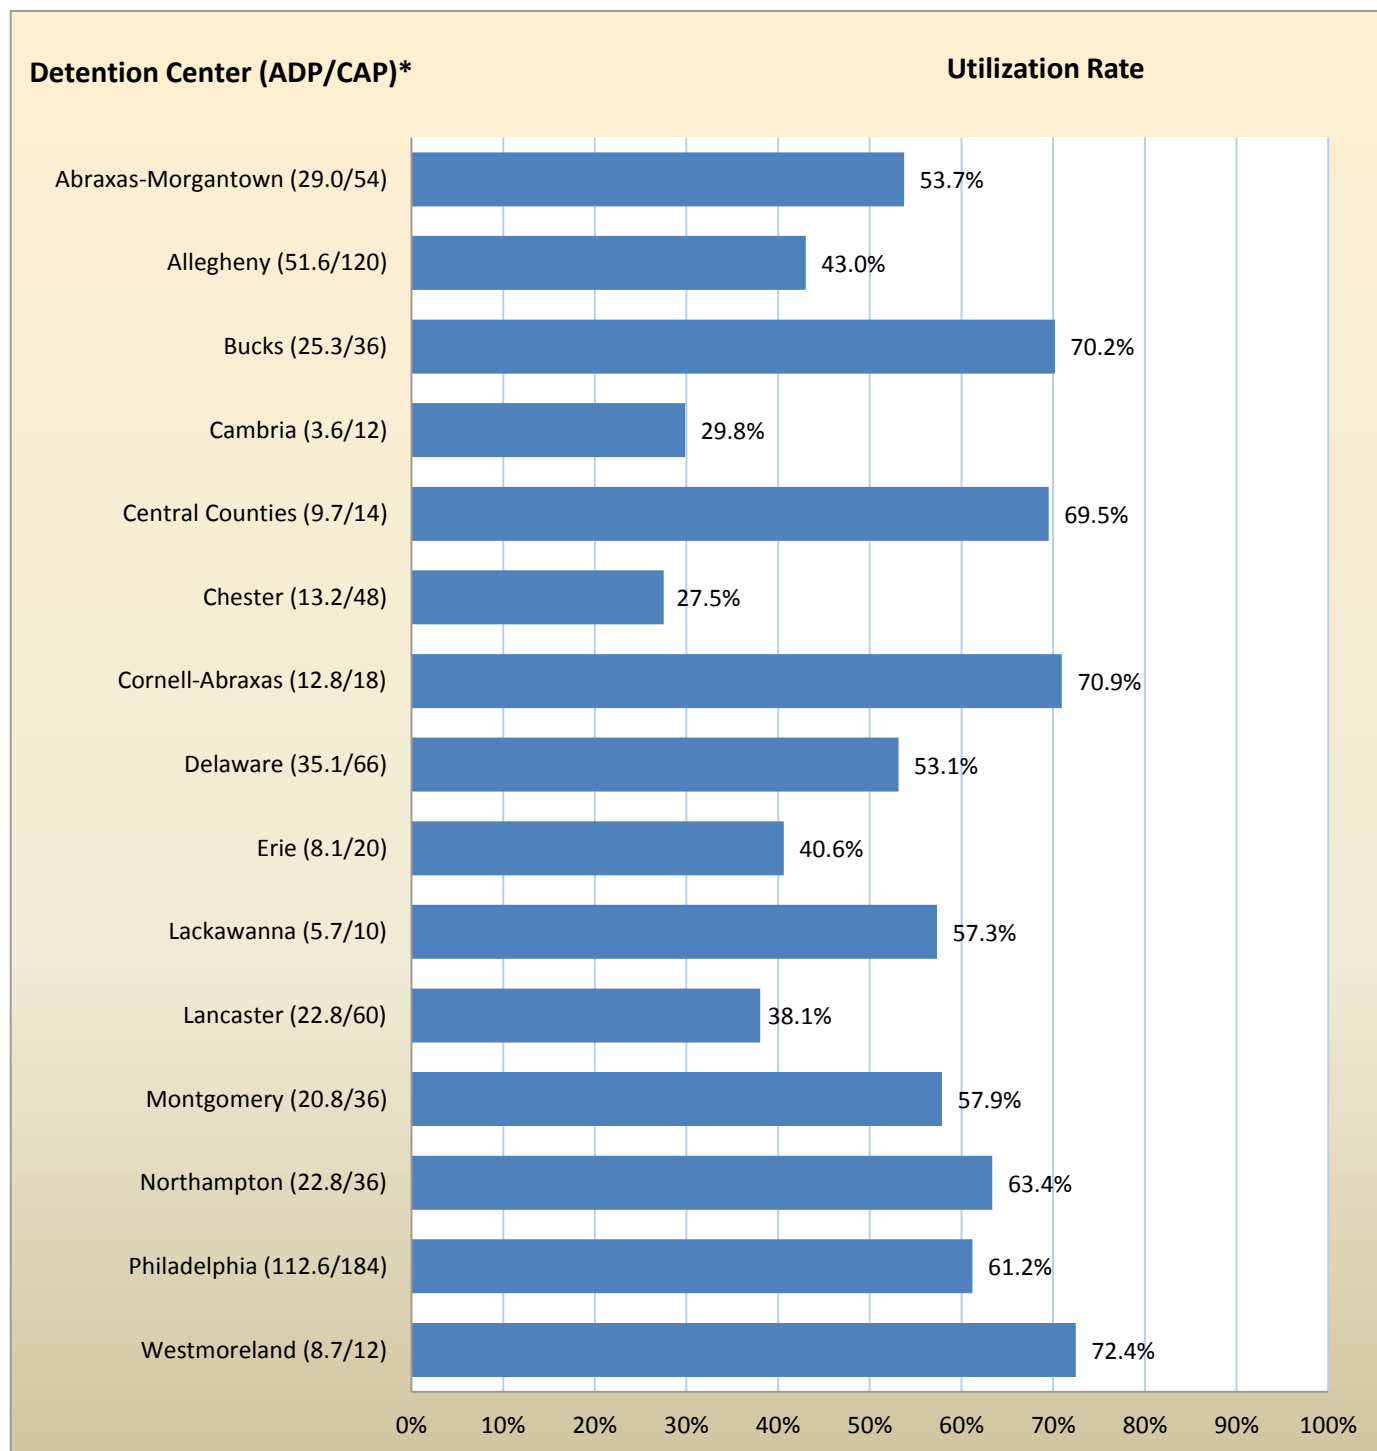

The Unreported category, as shown in this report, indicates that a code was not reported to the JCJC. Secure detention admissions that are authorized without codes are not in compliance with JCJC Standards.

The utilization of Codes 206, 701, and admissions with an Unreported code accounted for 45.2% of all secure detention admissions in 2015. The utilization of Code 206 increased from 24% in 2014 to 25.5% in 2015, as did the use of 701 from 5.4% to 6.1%. The percentage of Unreported codes decreased from 14.6% in 2014 to 13.6% in 2015.

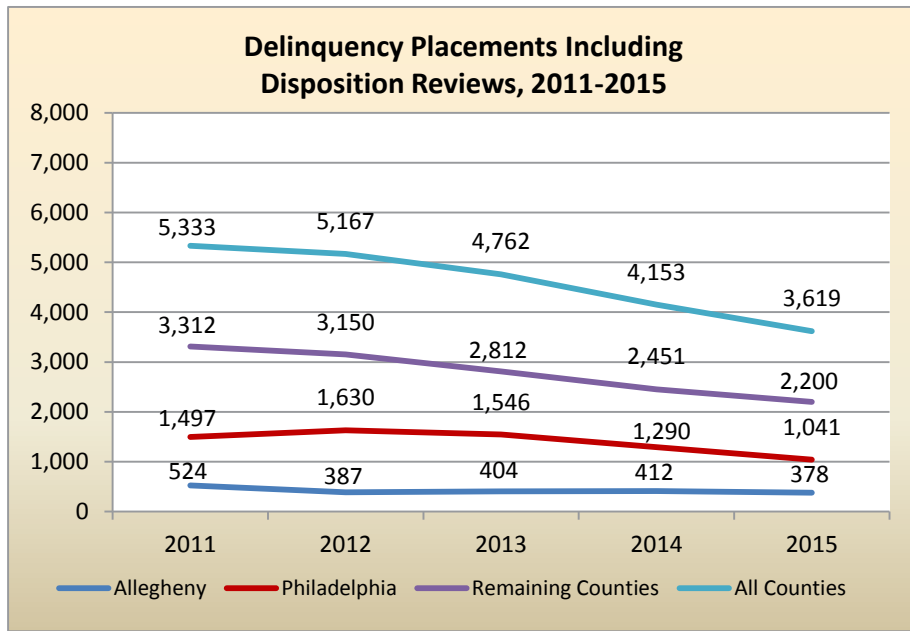

Utilization Rates for Pennsylvania Juvenile Detention Centers, 2015

*A center's utilization rate is equal to its average daily population (ADP) divided by the licensed bed capacity (CAP). Average Daily Population (ADP) is calculated by the sum of all utilized bed days divided by the number of days in the reporting period.

Delinquency Placements including Disposition Reviews, 2011-2015

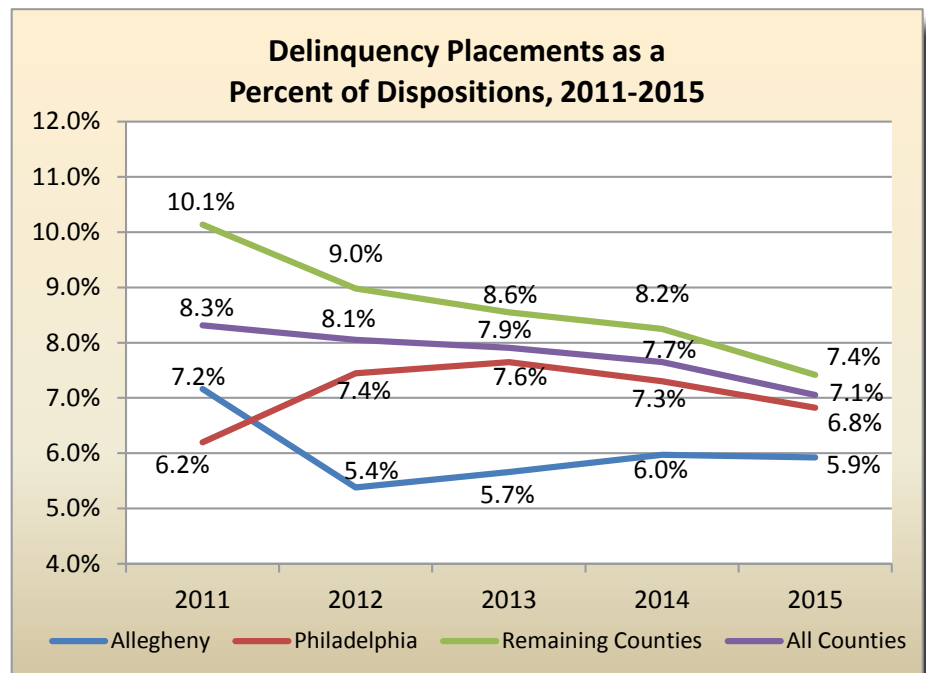

Statewide, delinquency placements have declined each year since 2011, with an overall decrease of 32.1%. Placements in all counties other than Allegheny and Philadelphia decreased each year since 2011, representing an overall decrease of 33.6% in these jurisdictions. Delinquency placements in Allegheny County decreased 8.3% and placements in Philadelphia decreased 19.3% from 2014 to 2015.

Delinquency Placements as a Percent of Dispositions, 2011-2015

Delinquency placements as a percentage of total dispositions, including disposition reviews, decreased from 2014 (7.7%) to 2015 (7.1%). Philadelphia County placements, as a percentage of total dispositions, also decreased from 7.3% in 2014 to 6.8% in 2015. Allegheny County placements decreased slightly from 6.0% in 2014 to 5.9% in 2015. In all counties other than Allegheny and Philadelphia, the percentage decreased from 8.2% in 2014 to 7.4% in 2015.

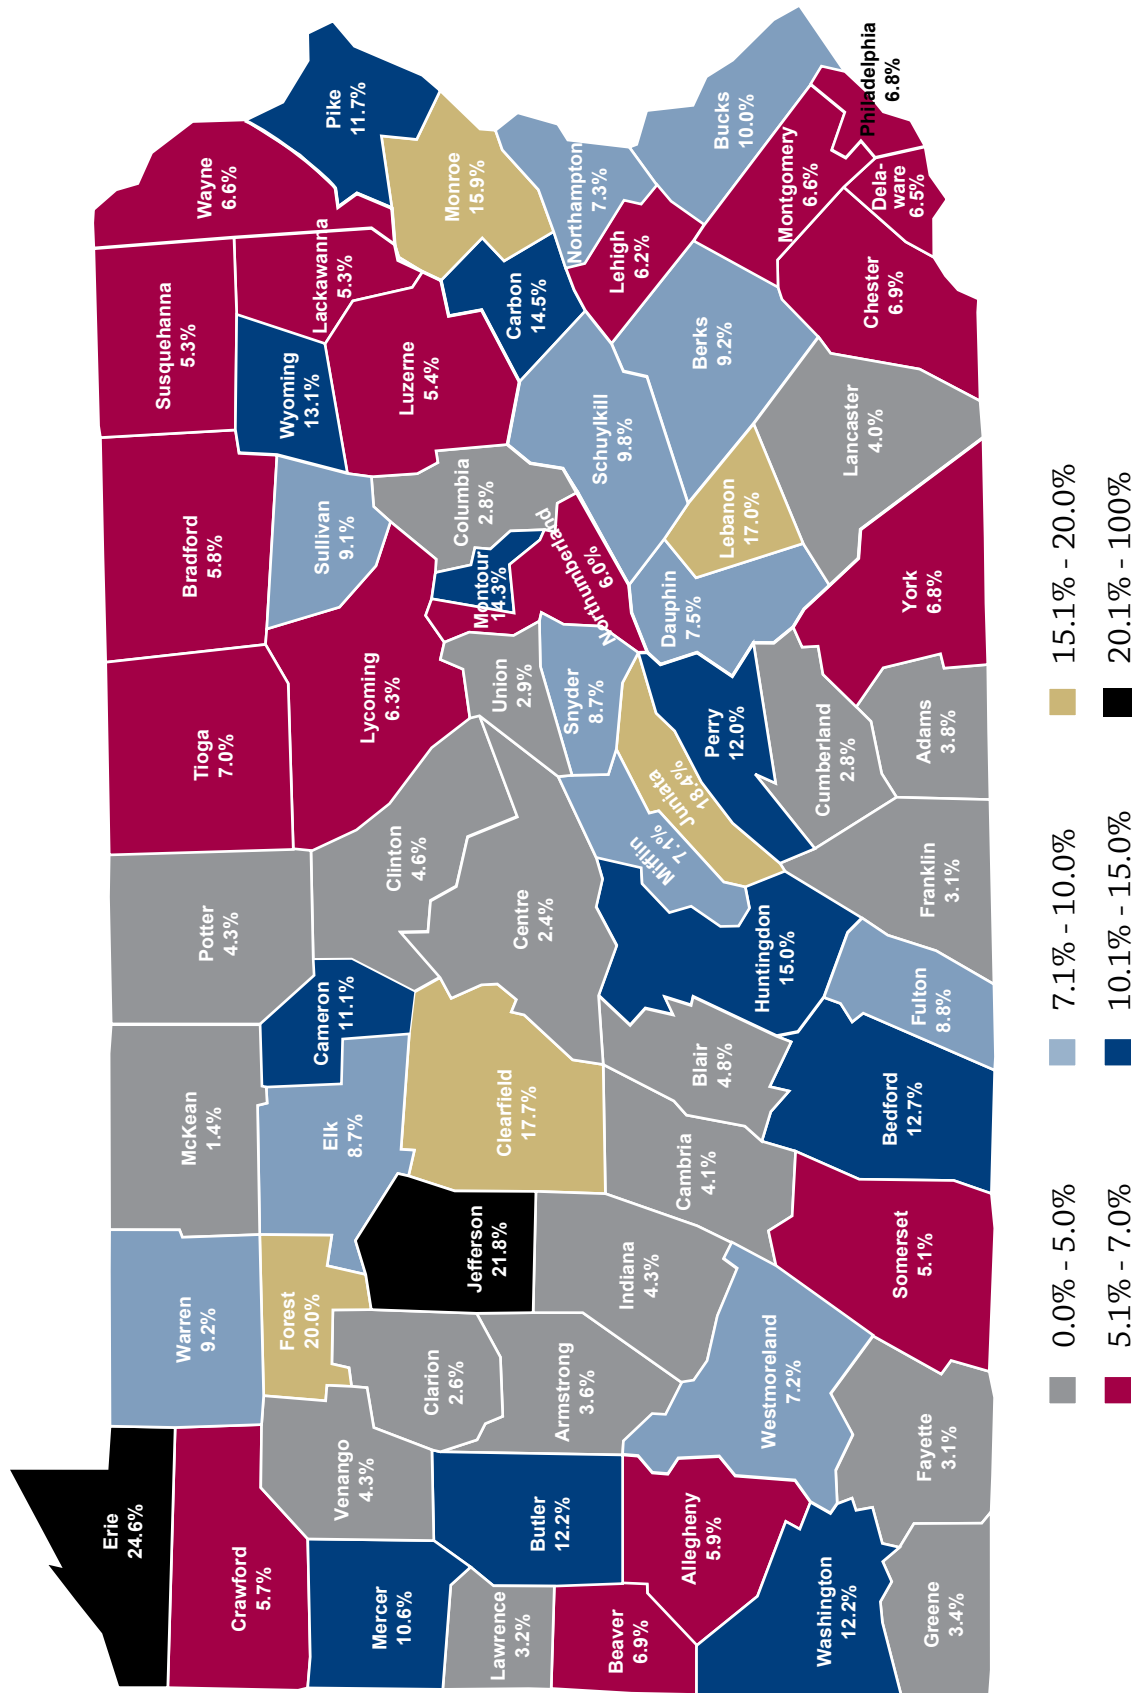

See the map on the next page for individual county delinquency placements as a percentage of total dispositions.

Delinquency Placements

2015 Delinquency Placements as a Percent of Dispositions Including Disposition Reviews

NOTE: Does not include placement reviews.

New Allegation Placements vs. Disposition Review Placements

The following chart depicts the relative percentage of placements that resulted from new allegations versus disposition review proceedings. A *disposition review* is a hearing conducted by the court regarding a previous disposition which did not result in out-of-home placement.

The percentage of placements resulting from both new allegations and disposition reviews is shown for each county by County Class.

Statewide, over half of delinquency placements (53.2%) were ordered as a result of a disposition review. This figure, however, was notably influenced by Philadelphia, which accounted for 28.8% of all delinquency placements statewide, and where 66.9% of all delinquency placements were ordered as a result of a disposition review.

Across all other County Class groups, the average distribution of delinquency placements was 52.2% from new allegations and 47.8% from disposition reviews. Philadelphia, Allegheny, Class 2A, and Class 7 are the County Class groups with a majority of delinquency placements originating from disposition reviews. Class 5 had a 50% even distribution.

Total Delinquency Placements by Type, 2015 Including Disposition Reviews

Delinquency placements to private institutions continued to represent the most frequent type of delinquency placements in 2015 - representing 57.5% of all placements. Commitments to drug and alcohol programs and group homes represented 21.5% of all delinquency placements, while all secure programs comprised 11.9%. Delinquency placements to private institutions demonstrated a slight decrease from 2014 to 2015 (58.5% - 57.5%), as did drug and alcohol placements from 12.7% in 2014 to 11.7% in 2015. Group home placements demonstrated an increase from 7.8% in 2014 to 9.8% in 2015.

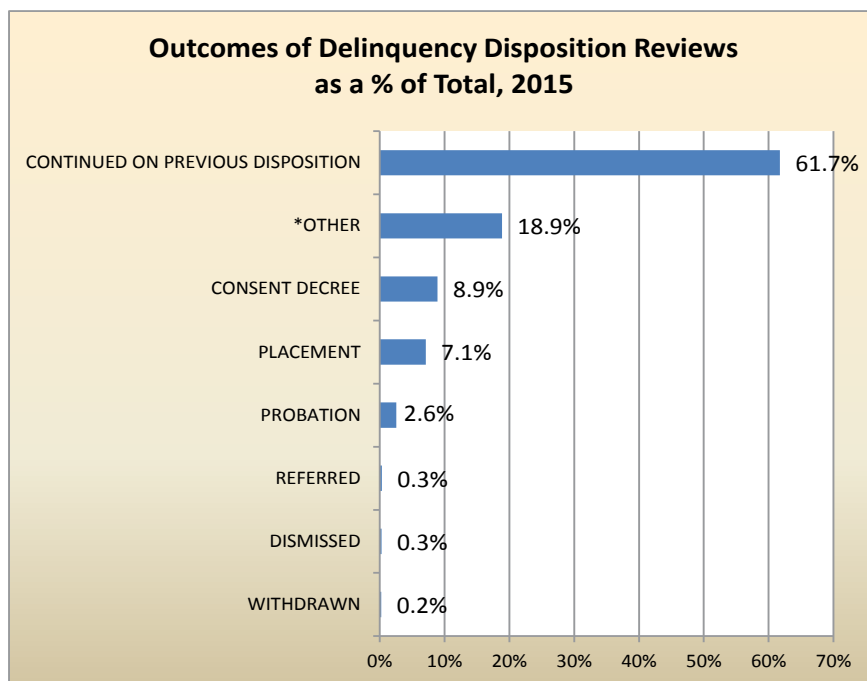

Disposition and Placement Reviews

Outcomes of Delinquency Disposition Reviews, 2015

Although the majority of delinquency placements resulted from disposition reviews (see page 19), less than 1 in 10 disposition review proceedings resulted in a delinquency placement. The vast majority of disposition reviews resulted in an order of Continued on Previous Disposition.

**The "Other" category includes dispositions of Case Closed, Case Closed-Fines Paid, Administrative Supervision Only/Collections, Judgement Filed/Case Closed, Other, Fines and/or Costs Ordered, Restitution Only Ordered, Informal Adjustment, Transferred to Criminal Court, Accepted Courtesy Supervision, Case Closed-Unable to Locate Juvenile, and Community Service Only.*

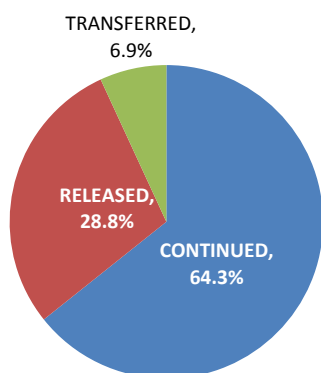

Outcomes of Delinquency Placement Reviews, 2015

A placement review is a hearing conducted by the court regarding a previous disposition which resulted in out-of-home placement.

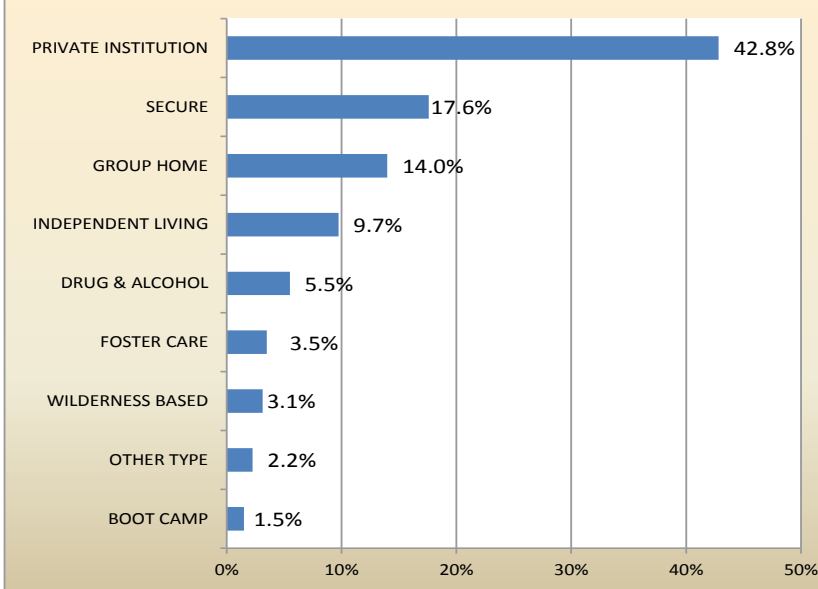

In the small percentage of placement reviews in which a transfer to another placement was ordered, most transfers were to a private institution.

The majority of delinquency placement review proceedings resulted in an order of Continued in Previous Placement.

Outcomes of Delinquency Placement Reviews, 2015

Transferred Placements By Type, 2015

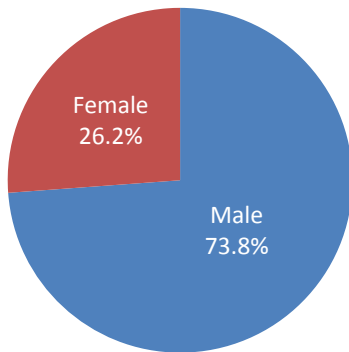

Selected Dispositions by Gender, 2015

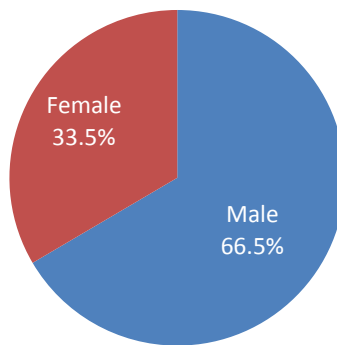

Juvenile Court dispositions in Pennsylvania continued to primarily involve males. As reflected in the charts below, the proportion of males receiving delinquency dispositions related to new allegations of delinquency increases as a case advances through different stages of the juvenile justice system.

SELECTED DISPOSITIONS	TOTAL	MALE	FEMALE
ALL DISPOSITIONS	24,139	73.8%	26.2%
INFORMAL ADJUSTMENT	3,916	66.5%	33.5%
CONSENT DECREE	5,185	74.0%	26.0%

Transferred to Criminal Proceedings

Total Dispositions by Age, 2014-2015

Seventeen-year-olds accounted for 6,369 (26.4%) of all juvenile delinquency dispositions in 2015, representing the most dispositions for any age group. Juveniles aged 16 accounted for 5,039 (20.9%), while 15-year-olds accounted for 4,150 (17.2%) of the dispositions. While these percentages remained consistent with that of 2014, all age groups decreased in the number of dispositions from 2014 to 2015.

This table reflects the age of the juvenile at the time of disposition.

Note: The data does not include dispositions resulting from disposition review and placement review hearings.

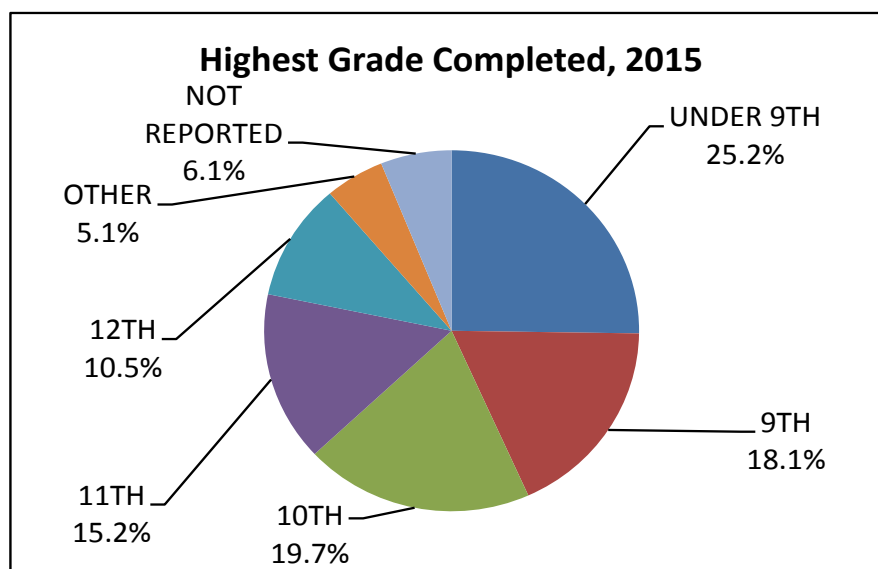

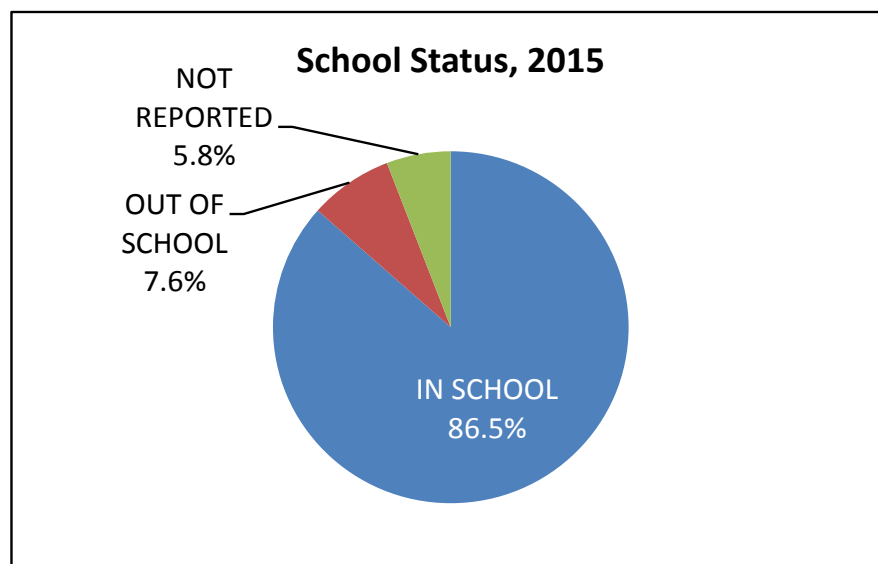

Total Dispositions by Selected Variables, 2015

The following charts reflect the distribution of all juvenile delinquency dispositions in 2015 by the selected variables.

Educational Status

The vast majority (86.5%) of delinquency dispositions in 2015 reflected youth who were reported as In School at the time of disposition. Sixty-nine percent of youth were reported as having completed grades 9, 10, 11, or 12, or as being in an “Other” educational program.

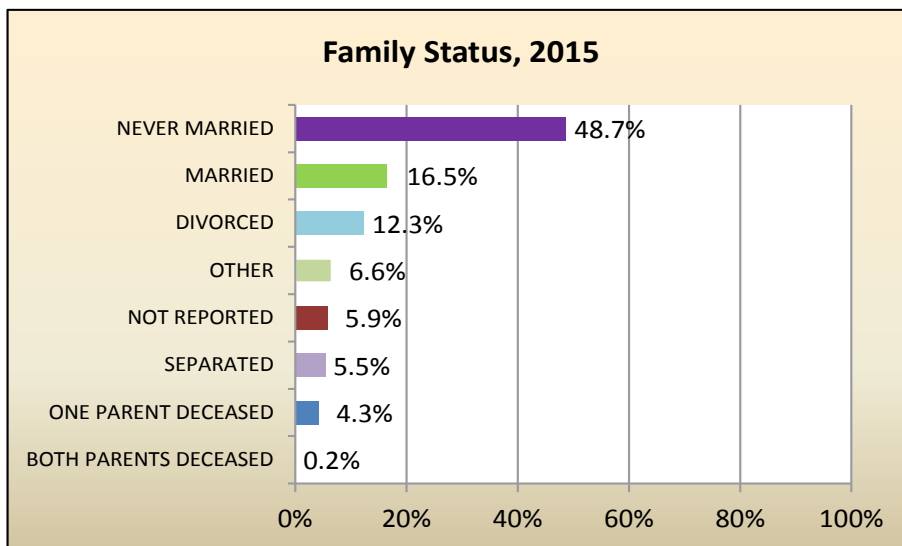

Note: The data does not include dispositions resulting from disposition review and placement review hearings.

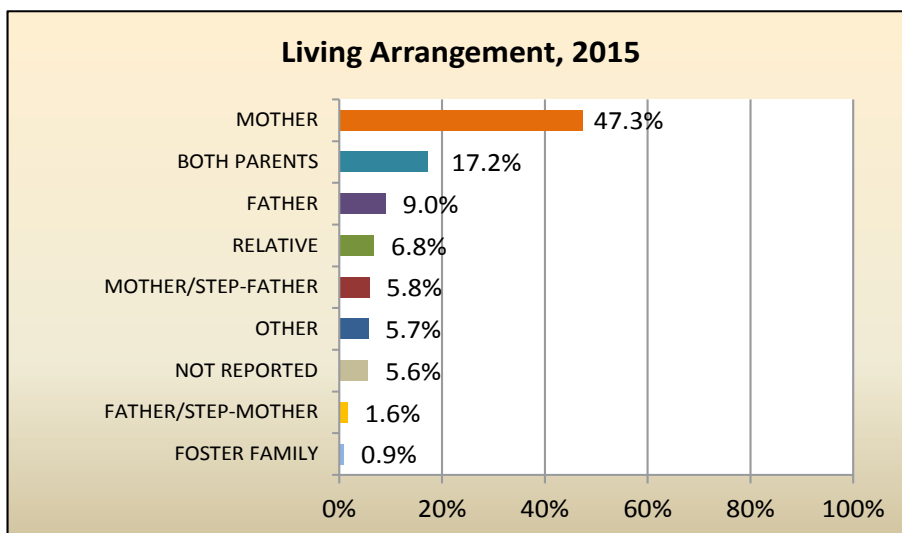

Total Dispositions by Selected Variables, 2015

Family Status

In juvenile delinquency dispositions, youth whose biological parents were reported as Never Married represented the largest group – more than 48%. In only 16.5% of cases, the biological parents were reported as Married at the time of disposition.

In 2015, 47.3% of youth resided only with their mother, while only 17.2% of juveniles resided with both biological parents.

Note: The data does not include dispositions resulting from disposition review and placement review hearings.

Race and Ethnicity

On the following pages, data on race and ethnicity trends related to Juvenile Court dispositions are provided. A few points of clarification regarding the reading and interpretation of this data should be noted.

The Juvenile Court Judges' Commission's Center for Juvenile Justice Training and Research collects data on race and ethnicity from each of Pennsylvania's 67 counties. The collection of this data is done in concert with the protocols outlined in *Guidelines for Collecting & Recording the Race and Ethnicity of Juveniles in Conjunction with Juvenile Delinquency Disposition Reporting to the Juvenile Court Judges' Commission* (National Center for Juvenile Justice, 2006). As such, race and ethnicity are collected and recorded as two separate and distinct sets of data.

Relative Rate Index (RRI) data, which is a federally defined measure of Disproportionate Minority Contact (DMC), is included in this section. The RRI calculates, at specific decision points in juvenile court processing, a rate of occurrence for various racial and ethnic groups, and compares the rates between groups. In short, the RRI measures the rate of juvenile justice occurrences for racial and ethnic minorities as compared to White Non-Hispanic youth.

For example, if the rate of admission to secure detention is 8 per 100 White Non-Hispanic youth and 32 per 100 Black Non-Hispanic youth, the RRI (32/8) would be 4.0. In this example, an RRI of 4.0 would suggest that African-American youth were placed in secure detention at 4 times the rate of White Non-Hispanic youth. This RRI is then evaluated to determine if it is statistically significant, meaning if it deviates from what is expected by more than chance. An index value of 1.00 would indicate that the rates are the same.

OJJDP defined decision points	Base used for RRI Calculation	Pennsylvania Unit of Count/Source of Data
1. Population at risk (age 10 through 17)		US Census data estimates
2. Juvenile Arrests	Per 1000 youth	Pa State Police UCR report arrests
3. Refer to Juvenile Court	Per 100 arrests	Juvenile Court dispositions/Juvenile Court Judges' Commission disposition database
4. Cases Diverted	Per 100 referrals	Juvenile Court dispositions diverted/JCJC
5. Cases Involving Secure Detention	Per 100 referrals	Secure Detention Admissions/Pa detention center admission logs
6. Cases Petitioned (Charge Filed)	Per 100 referrals	Juvenile Court dispositions formally processed/JCJC
7. Cases Resulting in Delinquent Findings	Per 100 petitioned	Juvenile Court dispositions adjudicated delinquent/JCJC
8. Cases Resulting in Probation	Per 100 found delinquent	Juvenile Court dispositions resulting in probation /JCJC
9. Cases Resulting in Out of Home Residential Placement	Per 100 found delinquent	Juvenile Court dispositions resulting in out of home placement in a residential setting/JCJC
10. Cases Resulting in Confinement in Secure Juvenile Correctional Facilities	Per 100 found delinquent	Juvenile Court dispositions resulting in out of home placement in a secure setting/JCJC
11. Cases Transferred to Adult Court	Per 100 petitioned	Juvenile Court dispositions resulting in Transfer for Criminal Proceedings/JCJC

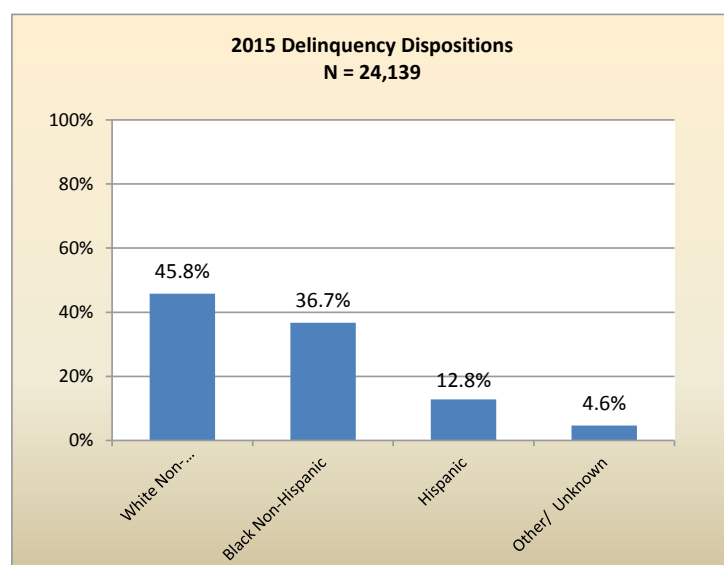

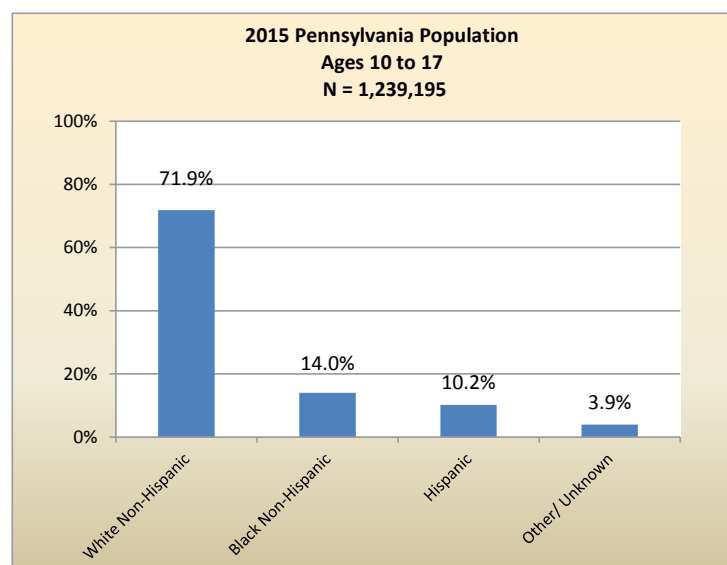

Trends related to both race and ethnicity are presented within the following charts, graphs, and tables. References to racial or ethnic groups are defined as follows:

White Non-Hispanic	reported as Non-Hispanic for ethnicity and White for race
Black Non-Hispanic	reported as Non-Hispanic for ethnicity and Black for race
Hispanic	reported as Hispanic for ethnicity regardless of reported race
Other and Unknown	reported as Non-Hispanic for ethnicity and one of the following races: Asian, Pacific Islander, Native Hawaiian, Native Alaskan, Native American, or Multi-Racial; or race and ethnicity was reported as unknown

Total Delinquency Dispositions by Race and Ethnicity

In 2015, White Non-Hispanic youth represented the largest racial/ethnic category for all delinquency dispositions. However, in comparison to the racial/ethnic distribution of all youth in Pennsylvania ages 10-17 the representation of Black Non-Hispanic youth is disproportionate: 14.0% of the total population versus 36.7% of all delinquency dispositions. When excluding Philadelphia County and Allegheny County, Black Non-Hispanic youth represent 8.2% of the youth population, but 27.3% of all delinquency dispositions. Please see Appendix 23 for the number of delinquency dispositions by race and ethnicity for each county.

Note: 2015 Population Estimates retrieved from The Centers for Disease Control available online at: <http://wonder.cdc.gov/bridged-race-population.html>

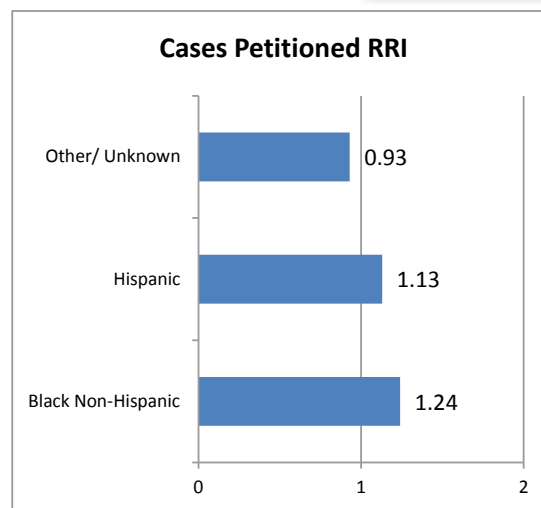

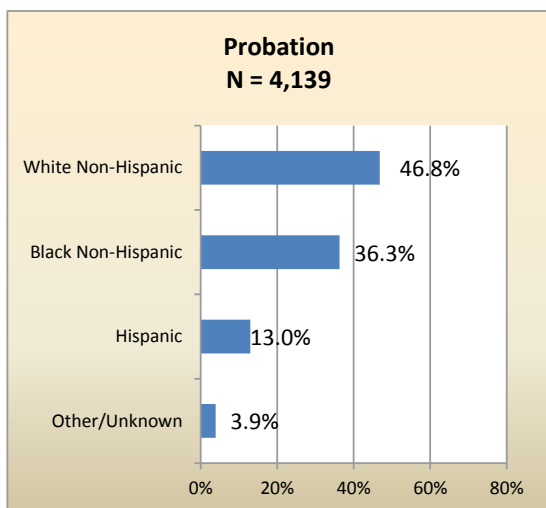

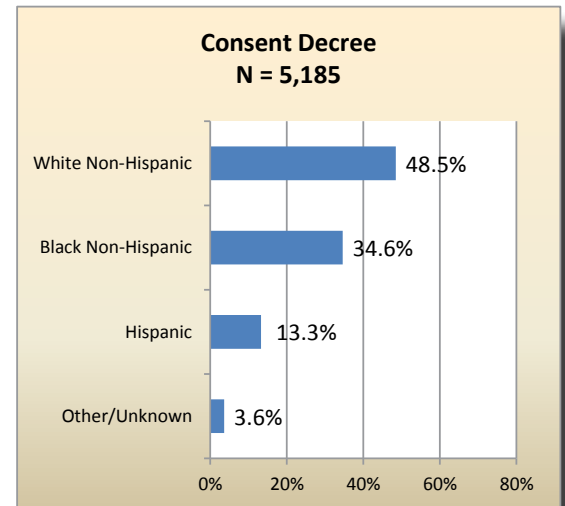

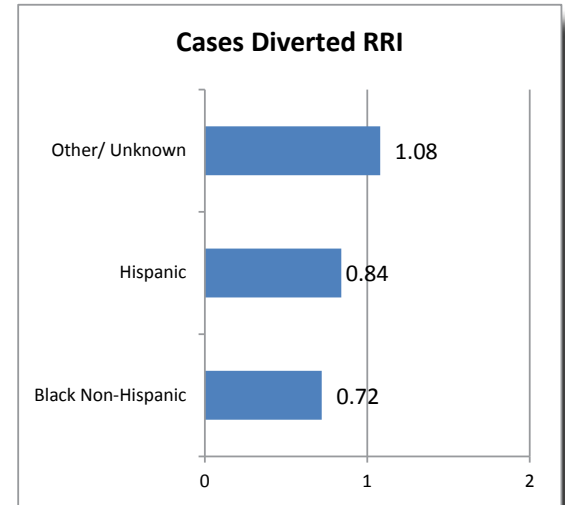

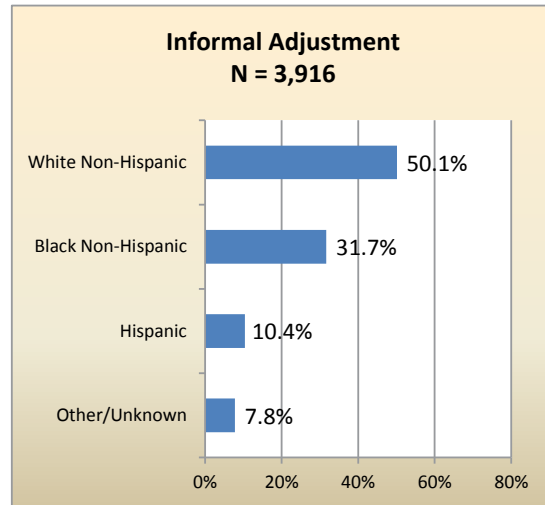

Selected Delinquency Dispositions by Race and Ethnicity

The following charts show the distribution of various dispositions by race and ethnicity.

For some delinquency dispositions that did not result in out-of-home placement (Informal Adjustment, Consent Decree, and Probation), Black Non-Hispanic youth comprised a smaller proportion of cases, while White Non-Hispanic youth comprised a larger proportion of cases than what is reflected in all delinquency dispositions.

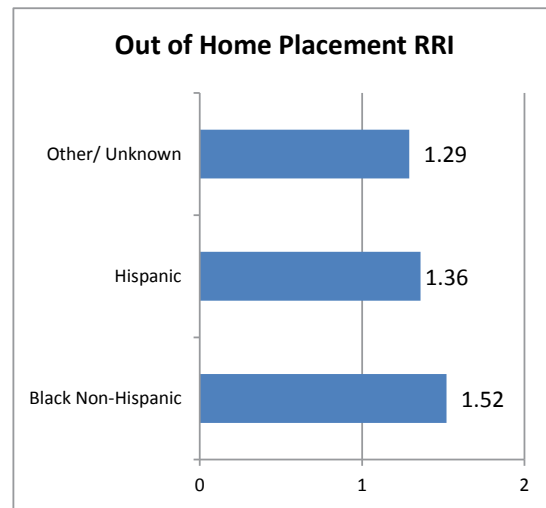

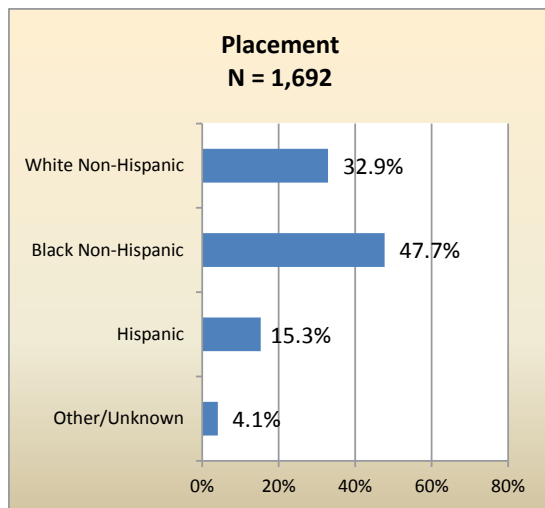

The RRI for Diverted Cases (number of dispositions not petitioned to court) and Cases Petitioned was consistent with the distribution of delinquency dispositions for Informal Adjustment, Consent Decree, and Probation. In 2015, Black Non-Hispanic youth were diverted at $\frac{2}{3}$ the rate of White Non-Hispanic youth, and these youth were petitioned for juvenile court at almost $1\frac{1}{4}$ the rate of White Non-Hispanic youth. Hispanic youth were diverted and petitioned for court at similar rates as White Non-Hispanic youth.

Selected Delinquency Dispositions by Race and Ethnicity *continued*

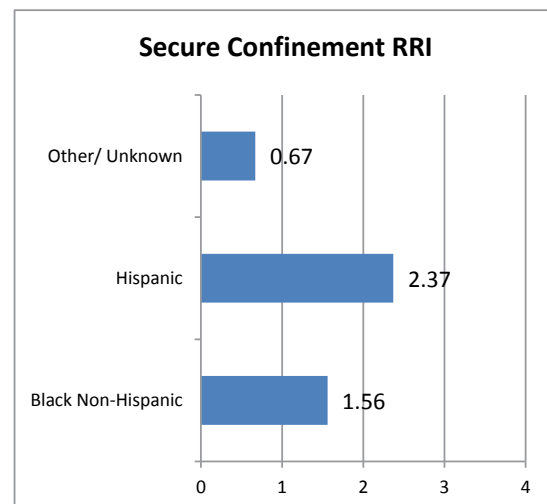

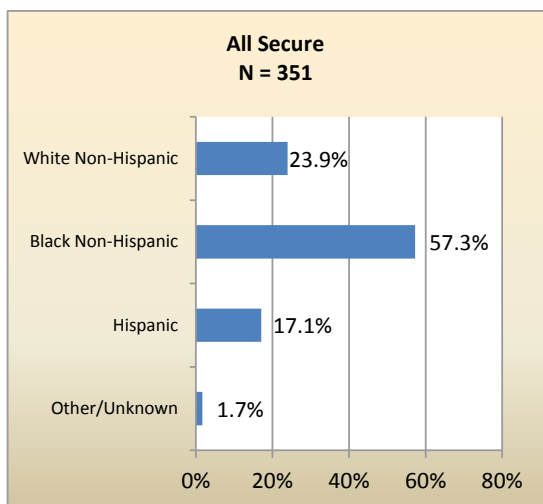

For dispositions that resulted in an out-of-home placement (not including disposition reviews and placement reviews), the proportion of both Hispanic (15.3%) and Black Non-Hispanic (47.7%) youth exceeded the representation of all delinquency dispositions.

The RRI for Out-of-Home Placement for Black Non-Hispanic youth was over 1½ the rate of White Non-Hispanic youth, and for Hispanic youth at 1⅓ the rate of White Non-Hispanic youth.

As in 2014, the data reported on community-based dispositions, out-of-home placements, and secure detention by race and ethnicity indicated that, in 2015, Hispanic and Black Non-Hispanic youth were removed from their homes for services at a higher rate, and received community-based interventions at a lower rate, than White Non-Hispanic youth.

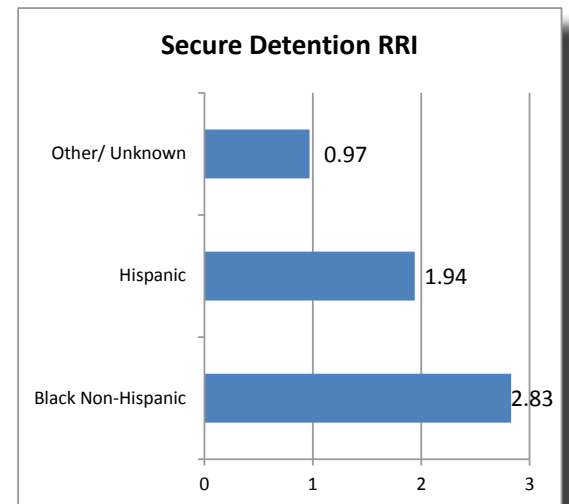

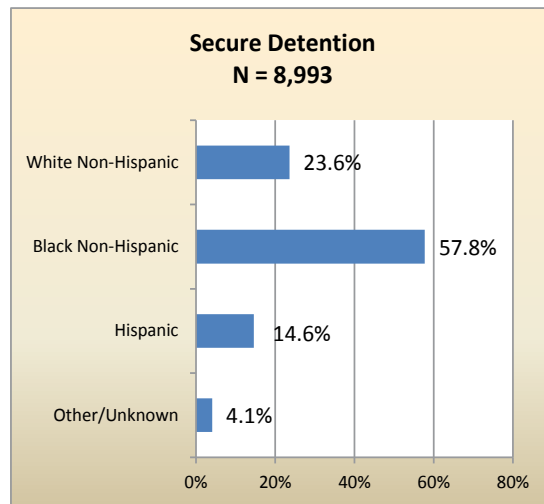

In 2015, the representation of Black Non-Hispanic youth (57.3%) for all secure placement settings was disproportionate to what was reflected among all placement dispositions (47.7%). Black Non-Hispanic youth were committed to secure placement facilities at 1½ times the rate of White Non-Hispanic youth. Hispanic youth were committed at 2⅓ times the rate of White Non-Hispanic youth.

Secure Detention by Race and Ethnicity

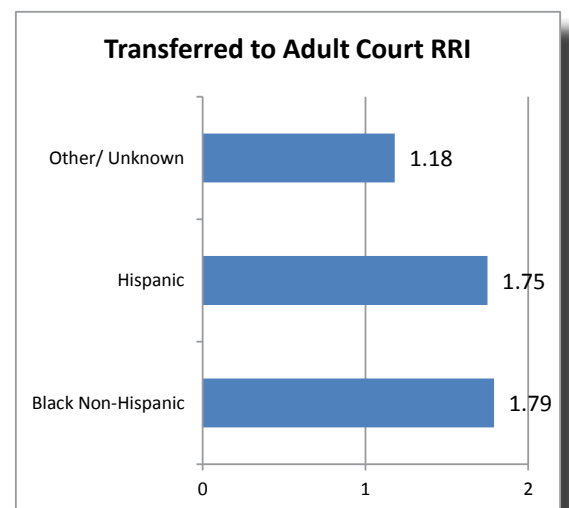

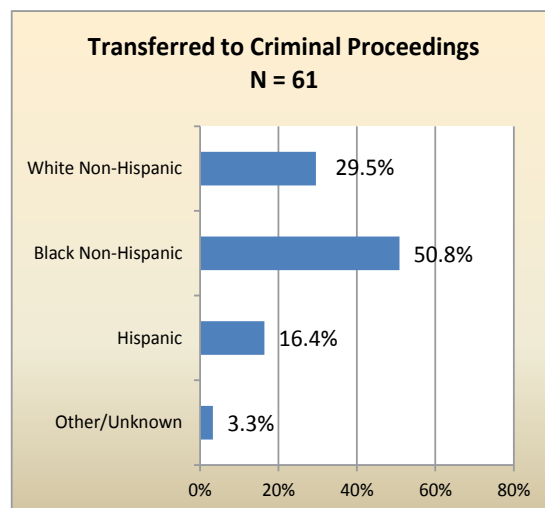

For secure detention, the statewide rate of disproportionality was more substantial, with Black Non-Hispanic youth comprising 57.8% of all secure detention admissions in 2015. When excluding Philadelphia and Allegheny Counties, Hispanic youth and Black Non-Hispanic youth represent approximately 16.9% and 41.7%, respectively, of all secure detention admissions. In Philadelphia County, 73.0% of secure detention admissions involved Black Non-Hispanic youth. In Allegheny County, 76.3% of secure detention admissions involved Black Non-Hispanic youth. Please see Appendix 25 for the number of secure detention admissions by race and ethnicity for each county.

The statewide RRI for secure detention indicated that Black Non-Hispanic youth were admitted to secure detention at more than 2¾ times the rate of White Non-Hispanic youth, and Hispanic youth were admitted at almost 2 times the rate of White Non-Hispanic youth.

Transferred to Criminal Proceedings by Race and Ethnicity

Statewide, Black Non-Hispanic youth comprised a greater proportion of cases transferred to criminal proceedings than what was reflected in all delinquency dispositions. Both Black Non-Hispanic and Hispanic youth were transferred to Adult Court at 1¾ the rate of White Non-Hispanic youth.

Dependency Dispositions

Dependency Dispositions, 2015

Since 1991, the Juvenile Court Judges' Commission collects information on dependency cases processed by juvenile probation departments. These figures do not reflect the total number of dependency cases in the Commonwealth. A dependency case is defined as a new referral that is processed by the juvenile probation department and that does not have accompanying delinquency allegations.

Only the counties that reported dependency dispositions are shown in the tables in this section.

Appendix 7

Time Lapse from Allegation to Disposition for Delinquency Cases, 2015

Time lapse information is calculated from the date of allegation to the date of disposition. Disposition reviews, placement reviews, and dependency cases are not included. Dispositions are grouped into one of two categories: “formal” or “informal”. A disposition is counted in the “formal” category if a date was reported in the Date of Hearing field indicating that a hearing before a judge or master was conducted, other than a detention hearing, following the filing of a petition.
